Harbor Access and Secure plans offer a predictable \$40 copay for doctor office and urgent care visits. This is the amount you'll pay to the provider at the time of your service.

Pre-Existing Conditions Rider

HarborSTM plans offer an optional pre-existing conditions rider. If the rider is selected and a health condition arises during the initial policy, that condition would not be excluded as pre-existing in the subsequent policy.

Short Term Medical insurance is often a lower-cost alternative to COBRA. Short Term Medical benefits may be limited compared to COBRA coverage.

Prescription Drugs

The optional Outpatient Prescription Drug Rider provides coverage for eligible generic, preferred brand-name, non-preferred brand-name, and specialty prescriptions filled through participating pharmacies. It includes a \$5,000 maximum benefit per covered person per coverage period. Generic drugs are subject to a \$25 copay, while covered brand-name and specialty drugs are subject to a \$500 prescription drug deductible, followed by plan coinsurance. Prescriptions filled outside the participating pharmacy network are not covered, and coverage is limited to drugs included on the plan's approved drug list.

Pre-Existing Conditions Rider

This coverage generally does not pay benefits for a sickness, injury, pregnancy, or other medical condition that existed before coverage began. This may include conditions for which you previously:

- received or were advised to receive medical care, consultation, testing, diagnosis, or treatment;
- received a prescription medication; or
- experienced signs or symptoms significant enough that a medical provider could have diagnosed the condition or a reasonable person would have sought medical care.

Without the optional rider: These limitations are applied separately to each new coverage period. A condition that develops or is treated during an earlier coverage period may therefore be considered pre-existing under a later Certificate.

With the optional rider: For an additional premium, the rider modifies how the pre-existing-conditions limitation applies after the initial coverage period for qualifying consecutive coverage purchased together. It does not provide immediate or complete coverage for all pre-existing conditions. State-specific terms and limitations apply.

See the Certificate and applicable rider for complete details.

IMPORTANT: This program provides supplemental health insurance only. It does not provide basic medical, or comprehensive/major medical coverage, and does not satisfy the "minimum essential coverage" requirements of the Patient Protection and Affordable Care Act.
