Central Health Advisors

A Guide for Securing Sales

Pre Qualification

Central Health Advisors, this is (FIRST AND LAST NAME). I'll be your licensed health insurance agent assisting you today. Please note that this call may be recorded for training and quality assurance.

Were you looking for an individual or family plan TODAY?

(IF INDIVIDUAL) - (Move on to next question)

(IF FAMILY) - And how many family members will be included onto the plan TODAY?

OK! GREAT! Now are you currently insured?

✔ (IF YES) And do you have that plan through the state, Marketplace, or through your employer?
✔ (IF YES) And just so I know how to HELP you today, were you looking for better coverage, lower rates, or is your policy expiring?

✖ (IF NO) Just so I know how to better HELP you, how long have you been without coverage?

Do you have any pre-existing medical conditions I should be aware of?

Are you currently taking any medications you'd like me to make sure are covered?

What is your Date of Birth?

Please verify your zip code?

Are you a tobacco user?

On average, how many times would you say that you go to the doctors on a yearly basis?

Do you have any doctors that you would like to keep in the network, just so I can place you into a plan that they participate in?

Do you have any upcoming surgeries, procedures or any treatments scheduled?

Perfect! Now to see if you may qualify for any state programs or any government subsidies, how much money do you make on a yearly basis BEFORE TAX?

Is there a monthly price range you're hoping to stay within so I can narrow down the best options?

Excellent. Assuming we find the right fit, how soon would you like your coverage to begin?

Perfect. I'm going to submit your information into my system now so I can pull up all of your available options. Give me about 30 to 60 seconds while I review everything, and I'll be right back with you.

(THIS IS THE SIZZLE!!!!)

Everest or HarmonyCare and SigmaCare

(Match Network to Plan)

✖ *(DO NOT ASK IF THEY ARE STILL THERE)*

Alright [Customer Name], I have some excellent news for you. Based on the information you provided, I was able to locate a plan for you through the *Multiplan Network/FirstHealth Network*. This plan offers fixed benefits for doctor visits, hospital care, and prescription savings. You have the flexibility to see any provider within the network, and there's no requirement for referrals to visit a specialist. Another key advantage is nationwide access—this coverage can be used anywhere the network is accepted. And most importantly, there is no deductible. Does everything sound clear so far?

▸ *(Wait for Answer)*

"Great. Based on everything we've reviewed, the monthly rate for this plan comes out to $___. There is a one-time standard group association fee of $___ to activate your membership within the plan. That brings the total for the first month to $___, and then moving forward, your monthly cost is simply $___ thereafter. Now, assuming this plan meets your medical needs, would the initial first-month amount of $___ be affordable for you today?"

▸ *(Wait for answer)*

Perfect. What I'll do next is walk you through the full benefits of the program. If everything looks good to you, we'll move forward with submitting the application to the insurance company. During the verification process, you'll receive an email that includes an outline of your coverage along with digital insurance cards. Your physical cards will then arrive by mail within approximately one to three weeks. Okay?

▸ *(Wait for answer)*

Let's start by reviewing how your doctor visits work so you can see how the plan functions, and then—if everything looks good—we'll move forward with submitting the application. Sounds good?

▸ *(Wait for answer)*

You don't need referrals to see a specialist. When you visit a doctor, the bill is first reduced to the network's contracted rate, and then your doctor visit benefit is applied. So if a provider bills higher, the network adjusts it first, and your benefit helps cover the cost after that.

▸ *(Wait for Answer)*

People like this plan because it's simple. Unlike traditional plans with deductibles and coinsurance, this plan has no deductible and pays defined benefit amounts toward covered services—so you know what the plan contributes and can plan your expenses more easily.

✖ *(DO NOT WAIT - GO TO RX)*

RX:

You'll also receive access to a prescription discount program you can use at major pharmacies. Discounts vary, but many members find it helpful. The plan does not include benefits for mental health, substance abuse, or pregnancy-related care. You won't be needing coverage for those services, correct?"

✖ *(DO NOT WAIT GO RIGHT TO CLOSING STATEMENT)*

CLOSING STATEMENT

Your coverage is scheduled to start on _____, pending enrollment and verification. You can see in-network providers with no referral required, and the plan includes day-to-day benefits and fixed hospital benefits, all with no deductible. Before we proceed, can you confirm that everything we've reviewed about the plan and its limitations has been explained and understood?

▸ *(Wait for Answer)*

OK Perfect, what is a good email we can send all this over to?

Would you like your insurance cards issued with a middle initial, or just your first and last name?

What is the physical mailing address where we should send your hard-copy documents to?

Great. And just to confirm, is this phone number _____ the best number for the insurance company to reach you if they have any follow-up or verification questions?

Before we complete the enrollment, I do need to verify a few items on this recorded line. Can you please confirm that you are a United States citizen or legal resident, and that all health information you provided today is accurate and complete to the best of your knowledge? Lastly, for identity verification purposes, please confirm your Social Security number?

▸ *(Wait for Answer)*

For the initial payment, which card type would you prefer you put on file?

▸ *(Wait for Answer)*

Ok go ahead with the card number. *(OR)* I'm ready for the card number when you're ready.

✖ *(DO NOT SPEAK WHOEVER TALKS FIRST LOSES)*

Verification

This is the final step. I'm sending you a text now from a 732 number labeled 'ONE ENROLLMENT.' Please click the link once you receive it. Let me know when you see it.

▸ *(Wait for Answer)*

Great. Please open the link and, if possible, place your phone on speaker so I can walk you through the document. Your role here is simply to confirm that everything has been entered correctly. I'll have you verify the spelling of your first and last name, your home address, email address, and phone number, as well as confirm that your date of birth and gender are accurate. I'll also ask you to confirm the payment method on file and the billing address associated with the application. Once you've reviewed everything, let me know—does it all look correct?"

▸ *(Wait for Answer)*

As you scroll down, you'll see what's called a bill-by-benefit breakdown. It's just a transparent summary showing how the policy is set up and how the cost is allocated across the benefits. (*Everest has 1 check box asking consent for email in the middle of the verification.)*

At the bottom, enter your first and last name—please capitalize both. Then sign electronically with your finger. You can leave the last checkbox unchecked unless you're applying for your child only. Click 'Accept' and tell me what you see.

(You've successfully signed your document)

Notes:

▸ *If needed: Don't forget to enroll customer GoodRX Account.*

▸ *You will need a verification code from the customer. Via TEXT.*

▸ *Remind customer to use GoodRX and not their insurance card at the pharmacy. Customer provides pharmacist of their GoodRX Account.*

Post Close

Perfect—I've received your signature on my end. I'm going to go ahead and submit your application to the insurance carrier now.
✔ *(If it goes through)*

Congratulations [Customer Name], your application is complete. Do you have a pen and paper? Our customer service number is 855-736-1590, available Monday through Friday, 9:00 a.m. to 9:00 p.m. Eastern. I'll also provide you with my direct extension for future reference.

Your confirmation number is CHA561337—please keep that for your records. If anyone calls claiming to be from our agency and can't provide that number, they're not affiliated with us.

Now go ahead and write down MULTIPLAN NETWORK - FIRST HEALTH NETWORK.

The website you can visit to search providers is:

providersearch.multiplan.com - providerlocator.firsthealth.com

With today's payment, your policy will become effective on _____. Your second payment will then be due 30 days from that effective date.
(If it's a postdate, make sure you state the dates correctly for the first billing date and the effective date)

You'll receive two ID cards by mail about 7 to 10 business days after your effective date. One is a discount card for prescriptions and other added benefits like dental and vision. The second card is your actual insurance ID card and will clearly show MULTIPLAN NETWORK - FIRST HEALTH NETWORK.

Just for your records, I want to quickly recap the main details you'll see in your paperwork. Your plan uses the Multiplan Network*/ FirstHealth Network* for doctors and hospitals.

The insurance benefits are underwritten by Everest Reinsurance Company / American Financial Security Life Insurance Company and offered through the National Congress of Employers (NCE).

Your monthly billing is handled through FirstEnroll, which is the name you'll see on your statements. All of this will be clearly outlined in your policy documents.

I do want to clarify that this is a private, limited-benefit plan, not an ACA or major medical plan, and it does not provide coverage for maternity, substance abuse, or psychiatric services.

- I also want to explain the 12 and 12 pre-existing condition clause, which states anything diagnosed in the last 12 months would have a 12-month waiting period. There is a standard 30-day waiting period for any hospital,sickness and scheduled doctor visits.

If you have any friends or family members that need quality coverage, please give them my information, it would be greatly appreciated. We will find them the right plan just as we did for you.

Alright [Customer Name], you've been an absolute pleasure. Now do you have any questions before we disconnect?

✖ *(DO NOT ASK IF THEY ARE STILL THERE)*

Access Health STM

Alright [Customer Name], I have some excellent news for you. Based on the information you provided, I was able to locate a plan for you through Access Health Lite which uses the Multiplan PHCS Network. You have the flexibility to see any provider within the network, and there's no requirement for referrals to visit a specialist. You are going to receive coverage for doctors visits, blood and lab work, urgent care, medical, surgical, hospital, and emergency room coverage. This plan requires medical underwriting and has a set deductible of $_____.

In order to determine eligibility I will read you a list of 15 conditions. Please confirm if you currently have or if you've ever been diagnosed with the following conditions:

Heart Disorder, Stroke, Chron's Disease, Ulcerative Colitis, Liver or Kidney Disorder Emphysema, COPD, Cancer or Tumor, Alcohol or Drug Abuse, HIV or AIDS, Multiple Sclerosis, Tuberculosis, Autism, Schizophrenia, Lupus, Bariatric or Weight Loss Surgery, Pregnancy?

▸ *(Wait for Answer)*

Great. Based on everything we've reviewed, the monthly rate for this plan comes out to $___. There is a one-time standard group association fee of $___ to activate your membership within the plan. That brings the total for the first month to $___, and then moving forward, your monthly cost is simply $___ thereafter. Now, assuming this plan meets your medical needs, would the initial first-month amount of $___ be affordable for you today?"

▸ *(Wait for answer)*

During the verification process, you'll receive an email that includes an outline of your coverage along with digital insurance cards. Your physical cards will then arrive by mail within approximately one to three weeks. Okay?

▸ *(Wait for answer)*

For your doctor's visits, you'll have access to a large PHCS network and you do not need a referral to see a specialist. Every time you go to the doctor's office you'll have a co-pay for your visit. For primary doctors visits and urgent care it's a $____ co-pay and for your specialist visits it's a $____ co-pay. Those visits aren't subject to the deductible. Your deductible will generally come into play in the event of hospitalization or surgery. For those services you have a $_____ deductible as well as 80/20 coinsurance with a Maximum out of Pocket of $2000 and with a cap of $ _____. How is this sounding so far?

✖ *(DO NOT WAIT - GO TO RX)*

RX:

You'll also receive access to a prescription discount program you can use at major pharmacies. Discounts vary, but many members find it helpful.

✖ *(DO NOT WAIT GO INTO CLOSING STATEMENT)*

CLOSING STATEMENT

Your coverage is scheduled to start on _____, pending enrollment and verification. You can see in-network providers with no referral required, and the plan includes day-to-day benefits and for more serious care, such as hospital stays or surgeries, the plan uses the deductible and coinsurance we've reviewed. Before we proceed, can you confirm that everything we've reviewed about the plan and its limitations has been explained and understood?

▸ *(Wait for Answer)*

OK Perfect, what is a good email we can send all this over to?

With today's payment, your policy will become effective on _____. Your second payment will then be due 30 days from that effective date. *(If it's a postdate, make sure you state the dates correctly for the first billing date and the effective date)*

You'll receive two ID cards by mail about 7 to 10 business days after your effective date. One is a discount card for prescriptions and other added benefits like dental and vision. The second card is your actual insurance ID card and will clearly show FIRST HEALTH NETWORK.

Just for your records, I want to quickly recap the main details you'll see in your paperwork. Your plan uses the *FirstHealth Network* for doctors and hospitals.

The Plan Administrator / Claims Administrator: Merchants Benefit Administration (MBA)

Your monthly billing is handled through FirstEnroll, which is the name you'll see on your

statements. All of this will be clearly outlined in your policy documents.

I do want to clarify that this is a private, limited-benefit plan, not an ACA or major medical plan, and it does not provide coverage for maternity, substance abuse, or psychiatric services.

- I also want to explain the 12 and 12 pre-existing condition clause, which states anything diagnosed in the last 12 months would have a 12-month waiting period. There is a standard 30-day waiting period for any hospital,sickness and scheduled doctor visits.

If you have any friends or family members that need quality coverage, please give them my information, it would be greatly appreciated. We will find them the right plan just as we did for you.

Alright [Customer Name], you've been an absolute pleasure. Now do you have any questions before we disconnect?

TDK 1,2,3 (Need Primary SSN)

✖ *(DO NOT ASK IF THEY ARE STILL THERE)*

Alright [Customer Name], I have some excellent news for you. Based on the information you provided, I was able to locate a plan for you through the *FirstHealth Network*. This plan offers fixed benefits for doctor visits, hospital care, and prescription savings. You have the flexibility to see any provider within the network, and there's no requirement for referrals to visit a specialist. Another key advantage is nationwide access—this coverage can be used anywhere the network is accepted. And most importantly, there is no deductible. Does everything sound clear so far?

▸ *(Wait for Answer)*

"Great. Based on everything we've reviewed, the monthly rate for this plan comes out to $___. There is a one-time standard group association fee of $___ to activate your membership within the plan. That brings the total for the first month to $___, and then moving forward, your monthly cost is simply $___ thereafter. Now, assuming this plan meets your medical needs, would the initial first-month amount of $___ be affordable for you today?"

▸ *(Wait for answer)*

Perfect. What I'll do next is walk you through the full benefits of the program. If everything looks good to you, we'll move forward with submitting the application to the insurance company. During the verification process, you'll receive an email that includes an outline of your coverage along with digital insurance cards. Your physical cards will then arrive by mail within approximately one to three weeks. Okay?

▸ *(Wait for answer)*

Perfect. Let's start by reviewing how your doctor visits work so you can see how the plan functions, and then—if everything looks good—we'll move forward with submitting the application. Sounds good?

▸ *(Wait for answer)*

You don't need referrals to see a specialist. When you visit a primary physician you will have a $25.00 co-pay. When you visit a specialist you will have a $50.00 co-pay. People like this plan because it's simple. Unlike traditional plans with deductibles and coinsurance, this plan has no deductible and pays defined benefit amounts toward covered services—so you know what the plan contributes and can plan your expenses more easily.

✖ *(DO NOT WAIT - GO TO RX)*

RX:

You'll also receive access to a prescription discount program you can use at major pharmacies. Discounts vary, but many members find it helpful. The plan does not include benefits for mental health, substance abuse, or pregnancy-related care. You won't be needing coverage for those services, correct?"

✖ *(DO NOT WAIT GO RIGHT TO CLOSING STATEMENT)*

CLOSING STATEMENT

Your coverage is scheduled to start on _____, pending enrollment and verification. You can see in-network providers with no referral required, and the plan includes day-to-day benefits and fixed hospital benefits, all with no deductible. Before we proceed, can you confirm that everything we've reviewed about the plan and its limitations has been explained and understood?

▸ *(Wait for Answer)*

OK Perfect, what is a good email we can send all this over to?

Would you like your insurance cards issued with a middle initial, or just your first and last name?

What is the physical mailing address where we should send your hard-copy documents to?

Great. And just to confirm, is this phone number _____ the best number for the insurance company to reach you if they have any follow-up or verification questions?

Before we complete the enrollment, I do need to verify a few items on this recorded line. Can you please confirm that you are a United States citizen or legal resident, and that all health information you provided today is accurate and complete to the best of your knowledge? Lastly, for identity verification purposes, please confirm your Social Security number?

▸ *(Wait for Answer)*

For the initial payment, which card type would you prefer you put on file?

▸ *(Wait for Answer)*

Ok go ahead with the card number. *(OR)* I'm ready for the card number when you're ready.

✖ *(DO NOT SPEAK WHOEVER TALKS FIRST LOSES)*

Verification

This is the final step. I'm sending you a text now from a 732 number labeled 'ONE ENROLLMENT.' Please click the link once you receive it. Let me know when you see it.

▸ *(Wait for Answer)*

Great. Please open the link and, if possible, place your phone on speaker so I can walk you through the document. Your role here is simply to confirm that everything has been entered correctly. I'll have you verify the spelling of your first and last name, your home address, email address, and phone number, as well as confirm that your date of birth and gender are accurate. I'll also ask you to confirm the payment method on file and the billing address associated with the application. Once you've reviewed everything, let me know—does it all look correct?"

▸ *(Wait for Answer)*

As you scroll down, you'll see what's called a bill-by-benefit breakdown. It's just a transparent summary showing how the policy is set up and how the cost is allocated across the benefits.

You will also see the specific name of the plan through the First Health Network (TDK 1,2,3) which stands for Transforming Data to Knowledge which is administered through Detego Health which processes the claims for your Health Data Analytics.

As you scroll through the document there will be acknowledgement boxes that you will need to check off, there should be 8 of them.

At the bottom, enter your first and last name—please capitalize both. Then sign electronically with your finger. You can leave the last checkbox unchecked unless you're applying for your child only. Click 'Accept' and tell me what you see.

(You've successfully signed your document)

Notes:

▸ *If needed: Don't forget to enroll customer GoodRX Account.*

▸ *You will need a verification code from the customer. Via TEXT.*

▸ *Remind customer to use GoodRX and not their insurance card at the pharmacy. Customer provides pharmacist of their GoodRX Account.*

Alright [Customer Name], you've been an absolute pleasure. Now do you have any questions before we disconnect?

Health Choice Silver

✖ *(DO NOT ASK IF THEY ARE STILL THERE)*

Alright [Customer Name], I have some excellent news for you. Based on the information you provided, I was able to locate a plan for you through the *Multiplan Network*. This plan offers fixed benefits for doctor visits, hospital care, and prescription savings. You have the flexibility to see any provider within the network, and there's no requirement for referrals to visit a specialist. Another key advantage is nationwide access—this coverage can be used anywhere the network is accepted. And most importantly, there is no deductible. Does everything sound clear so far?

▸ *(Wait for Answer)*

"Great. Based on everything we've reviewed, the monthly rate for this plan comes out to $___. There is a one-time standard group association fee of $___ to activate your membership within the plan. That brings the total for the first month to $___, and then moving forward, your monthly cost is simply $___ thereafter. Now, assuming this plan meets your medical needs, would the initial first-month amount of $___ be affordable for you today?"

▸ *(Wait for answer)*

Perfect. What I'll do next is walk you through the full benefits of the program. If everything looks good to you, we'll move forward with submitting the application to the insurance company. During the verification process, you'll receive an email that includes an outline of your coverage along with digital insurance cards. Your physical cards will then arrive by mail within approximately one to three weeks. Okay?

▸ *(Wait for answer)*

Perfect. Let's start by reviewing how your doctor visits work so you can see how the plan functions, and then—if everything looks good—we'll move forward with submitting the application. Sounds good?

▸ *(Wait for answer)*

You don't need referrals to see a specialist. When you visit a doctor, the bill is first

reduced to the network's contracted rate, and then your doctor visit benefit is applied. So if a provider bills higher, the network adjusts it first, and your benefit helps cover the cost after that.

▸ *(Wait for Answer)*

People like this plan because it's simple. Unlike traditional plans with deductibles and coinsurance, this plan has no deductible and pays defined benefit amounts toward covered services—so you know what the plan contributes and can plan your expenses more easily.

✖ *(DO NOT WAIT - GO TO RX)*

RX:

You'll also receive access to a prescription discount program you can use at major pharmacies. Discounts vary, but many members find it helpful. The plan does not include benefits for mental health, substance abuse, or pregnancy-related care. You won't be needing coverage for those services, correct?"

✖ *(DO NOT WAIT GO RIGHT TO CLOSING STATEMENT)*

CLOSING STATEMENT

Your coverage is scheduled to start on _____, pending enrollment and verification. You can see in-network providers with no referral required, and the plan includes day-to-day benefits and fixed hospital benefits, all with no deductible. Before we proceed, can you confirm that everything we've reviewed about the plan and its limitations has been explained and understood?

▸ *(Wait for Answer)*

OK Perfect, what is a good email we can send all this over to?

Would you like your insurance cards issued with a middle initial, or just your first and last name?

What is the physical mailing address where we should send your hard-copy documents

to?

Great. And just to confirm, is this phone number _____ the best number for the insurance company to reach you if they have any follow-up or verification questions?

Before we complete the enrollment, I do need to verify a few items on this recorded line. Can you please confirm that you are a United States citizen or legal resident, and that all health information you provided today is accurate and complete to the best of your knowledge? Lastly, for identity verification purposes, please confirm your Social Security number?

▸ *(Wait for Answer)*

For the initial payment, which card type would you prefer you put on file?

▸ *(Wait for Answer)*

Ok go ahead with the card number. *(OR)* I'm ready for the card number when you're ready.

✖ *(DO NOT SPEAK WHOEVER TALKS FIRST LOSES)*

Verification

This is the final step. I'm sending you a text now from a 732 number labeled 'ONE ENROLLMENT.' Please click the link once you receive it. Let me know when you see it.

▸ *(Wait for Answer)*

Great. Please open the link and, if possible, place your phone on speaker so I can walk you through the document. Your role here is simply to confirm that everything has been entered correctly. I'll have you verify the spelling of your first and last name, your home address, email address, and phone number, as well as confirm that your date of birth and gender are accurate. I'll also ask you to confirm the payment method on file and the billing address associated with the application. Once you've reviewed everything, let me know—does it all look correct?"

▸ *(Wait for Answer)*

As you scroll down, you'll see what's called a bill-by-benefit breakdown. It's just a transparent summary showing how the policy is set up and how the cost is allocated across the benefits.

At the bottom, enter your first and last name—please capitalize both. Then sign electronically with your finger. You can leave the last checkbox unchecked unless you're applying for your child only. Click 'Accept' and tell me what you see.

(You've successfully signed your document)

Notes:

▸ *If needed: Don't forget to enroll customer GoodRX Account.*

▸ *You will need a verification code from the customer. Via TEXT.*

▸ *Remind customer to use GoodRX and not their insurance card at the pharmacy. Customer provides pharmacist of their GoodRX Account.*

Post Close

Perfect—I've received your signature on my end. I'm going to go ahead and submit your application to the insurance carrier now.
✔ *(If it goes through)*

Congratulations [Customer Name], your application is complete. Do you have a pen and paper? Our customer service number is 855-736-1590, available Monday through Friday, 9:00 a.m. to 9:00 p.m. Eastern. I'll also provide you with my direct extension for future reference.

Your confirmation number is CHA561337—please keep that for your records. If anyone calls claiming to be from our agency and can't provide that number, they're not affiliated with us.

Now go ahead and write down *MULTIPLAN NETWORK*

The website you can visit to search providers is: *providersearch.multiplan.com*

With today's payment, your policy will become effective on _____. Your second payment will then be due 30 days from that effective date.
(If it's a postdate, make sure you state the dates correctly for the first billing date and the effective date)

You'll receive two ID cards by mail about 7 to 10 business days after your effective date. One is a discount card for prescriptions and other added benefits like dental and vision. The second card is your actual insurance ID card and will clearly show *MULTIPLAN NETWORK.*

Just for your records, I want to quickly recap the main details you'll see in your paperwork. Your plan uses the *Multiplan Network* for doctors and hospitals.

The insurance benefits are underwritten by American Financial Security Life Insurance Company and offered through the National Congress of Employers (NCE).

Your monthly billing is handled through FirstEnroll, which is the name you'll see on your statements. All of this will be clearly outlined in your policy documents.

I do want to clarify that this is a private, limited-benefit plan, not an ACA or major medical plan, and it does not provide coverage for maternity, substance abuse, or psychiatric services.

- I also want to explain the 12 and 12 pre-existing condition clause, which states anything diagnosed in the last 12 months would have a 12-month waiting period. There is a standard 30-day waiting period for any hospital,sickness and scheduled doctor visits.

If you have any friends or family members that need quality coverage, please give them my information, it would be greatly appreciated. We will find them the right plan just as we did for you.

✖ *(DO NOT ASK IF THEY ARE STILL THERE)*

Alright [Customer Name], I have some excellent news for you. Based on the information you provided, I was able to locate a plan for you through AWA Americas Workers Association which uses the Multiplan PHCS Network. You have the flexibility to see any provider within the network, and there's no requirement for referrals to visit a specialist. You are going to receive coverage for doctors visits, blood and lab work, urgent care, medical, surgical, hospital, and emergency room coverage. This plan requires medical underwriting and has a set deductible of $_____.

In order to determine eligibility I will read you a list of 15 conditions. Please confirm if you currently have or if you've ever been diagnosed with the following conditions:

Heart Disorder, Stroke, Chron's Disease, Ulcerative Colitis, Liver or Kidney Disorder, Emphysema, COPD, Cancer or Tumor, Alcohol or Drug Abuse, HIV or AIDS, Multiple Sclerosis, Tuberculosis, Autism, Schizophrenia, Lupus, Bariatric or Weight Loss Surgery, Pregnancy?

▸ *(Wait for Answer)*

Great. Based on everything we've reviewed, the monthly rate for this plan comes out to $___. There is a one-time standard (AWA) association fee of $___ to activate your membership within the plan. (Americas Workers Association) That brings the total for the first month to $___, and then moving forward, your monthly cost is simply $___ thereafter. Now, assuming this plan meets your medical needs, would the initial first-month amount of $___ be affordable for you today?"

▸ *(Wait for answer)*

✖ *(DO NOT ASK IF THEY ARE STILL THERE)*

Alright [Customer Name], I have some excellent news for you. Based on the information you provided, I was able to locate a plan for you through SGIC which uses the Multiplan PHCS Network. You have the flexibility to see any provider within the network, and there's no requirement for referrals to visit a specialist. You are going to receive coverage for doctors visits, blood and lab work, urgent care, medical, surgical, hospital, and emergency room coverage. This plan requires medical underwriting and has a set deductible of $_____.

In order to determine eligibility I will read you a list of 15 conditions. Please confirm if you currently have or if you've ever been diagnosed with the following conditions:

Heart Disorder, Stroke, Chron's Disease, Ulcerative Colitis, Liver or Kidney Disorder Emphysema, COPD, Cancer or Tumor, Alcohol or Drug Abuse, HIV or AIDS, Multiple Sclerosis, Tuberculosis, Autism, Schizophrenia, Lupus, Bariatric or Weight Loss Surgery, Pregnancy?

▸ *(Wait for Answer)*

Great. Based on everything we've reviewed, the monthly rate for this plan comes out to $___. There is a one-time standard (AWA) association fee of $___ to activate your membership within the plan. (Americas Workers Association) That brings the total for the first month to $___, and then moving forward, your monthly cost is simply $___ thereafter. Now, assuming this plan meets your medical needs, would the initial first-month amount of $___ be affordable for you today?"

▸ *(Wait for answer)*

Perfect. What I'll do next is walk you through the full benefits of the program. If everything looks good to you, we'll move forward with submitting the application to the insurance company. During the verification process, you'll receive an email that includes an outline of your coverage along with digital insurance cards. Your physical cards will then arrive by mail within approximately one to three weeks. Okay?

▸ *(Wait for answer)*

For your doctor's visits, you'll have access to a large PHCS network and you do not need a referral to see a specialist. Every time you go to the doctor's office you'll have a co-pay for your visit. For primary doctors visits it's a $40.00 co-pay and for your specialist visits it's a $60.00 co-pay. Your deductible will generally come into play in the event of Doctor visits, hospitalization or surgery. For those services you have a $_____ deductible, as well as 80/20, 70/30 or 50/50 coinsurance with a Maximum out of Pocket of $5000.00 or $10,000.00. How is this sounding so far?

✖ *(DO NOT WAIT - GO TO RX)*

RX:

You'll also receive access to a prescription discount program you can use at major pharmacies. Discounts vary, but many members find it helpful.

✖ *(DO NOT WAIT GO INTO CLOSING STATEMENT)*

CLOSING STATEMENT

Your coverage is scheduled to start on _____, pending enrollment and verification. You can see in-network providers with no referral required, and the plan includes day-to-day benefits and for more serious care, such as hospital stays or surgeries, the plan uses the deductible and coinsurance we've reviewed. Before we proceed, can you confirm that everything we've reviewed about the plan and its limitations has been explained and understood?

▸ *(Wait for Answer)*

OK Perfect, what is a good email we can send all this over to?

Would you like your insurance cards issued with a middle initial, or just your first and last name?

What is the physical mailing address where we should send your hard-copy documents to?

Great. And just to confirm, is this phone number _____ the best number for the insurance company to reach you if they have any follow-up or verification questions?

Before we complete the enrollment, I do need to verify a few items on this recorded line. Can you please confirm that you are a United States citizen or legal resident, and that all health information you provided today is accurate and complete to the best of your knowledge? Lastly, for identity verification purposes, please confirm your Social Security number?

▸ *(Wait for Answer)*

For the initial payment, which card type would you prefer you put on file?

▸ *(Wait for Answer)*

Ok go ahead with the card number. *(OR)* I'm ready for the card number when you're ready.

✖ *(DO NOT SPEAK WHOEVER TALKS FIRST LOSES)*

Verification

This is the final step. I'm sending you a text now from an 848 number labeled 'ONE ENROLLMENT.' Please click the link once you receive it. Let me know when you see it.

▸ *(Wait for Answer)*

Great. Please open the link and, if possible, place your phone on speaker so I can walk you through the document. Your role here is simply to confirm that everything has been entered correctly. I'll have you verify the spelling of your first and last name, your home address, email address, and phone number, as well as confirm that your date of birth and gender are accurate. I'll also ask you to confirm the payment method on file and the billing address associated with the application. Once you've reviewed everything, let me know—does it all look correct?"

▸ *(Wait for Answer)*

As you scroll down, you'll see what's called a bill-by-benefit breakdown. It's just a transparent summary showing how the policy is set up and how the cost is allocated across the benefits.

At the bottom, enter your first and last name—please capitalize both. Then sign electronically with your finger. You can leave the last checkbox unchecked unless you're applying for your child only. Click 'Accept' and tell me what you see.

(You've successfully signed your document)

Notes:

▸ *If needed: Don't forget to enroll customer GoodRX Account.*

▸ *You will need a verification code from the customer. Via TEXT.*

▸ *Remind customer to use GoodRX and not their insurance card at the pharmacy. Customer provides pharmacist of their GoodRX Account.*

Perfect—I've received your signature on my end. I'm going to go ahead and submit your application to the insurance carrier now.
✔ *(If it goes through)*

Congratulations [Customer Name], your application is complete. Do you have a pen and paper? Our customer service number is 855-736-1590, available Monday through Friday, 9:00 a.m. to 9:00 p.m. Eastern. I'll also provide you with my direct extension for future reference.

Your confirmation number is CHA561337—please keep that for your records. If anyone calls claiming to be from our agency and can't provide that number, they're not affiliated with us.

Now go ahead and write down MULTIPLAN NETWORK.

The website you can visit to search providers is: providersearch.multiplan.com

With today's payment, your policy will become effective on _____. Your second payment will then be due 30 days from that effective date.
(If it's a postdate, make sure you state the dates correctly for the first billing date and the effective date)

You'll receive two ID cards by mail about 7 to 10 business days after your effective date. One is a discount card for prescriptions and other added benefits like dental and vision. The second card is your actual insurance ID card and will clearly show MULTIPLAN NETWORK.

Just for your records, I want to quickly recap the main details you'll see in your paperwork. Your plan uses the *Multiplan Network* for doctors and hospitals.

The insurance benefits are underwritten by (SGIC) Southern Guarantee Insurance Company and offered through the Association for Responsible Partners.

Your monthly billing is handled through Neo Health Solutions, which is the name you'll see on your statements. All of this will be clearly outlined in your policy documents.

I do want to clarify that this is a private, short term health plan, not an ACA or major medical plan, and it does not provide coverage for maternity, substance abuse, or psychiatric services.

- I also want to explain the 12 and 12 pre-existing condition clause, which states anything diagnosed in the last 12 months would have a 12-month waiting period. There is a standard 30-day waiting period for any hospital,sickness and scheduled doctor visits.
If you need to add or change dependents in the future, that can be done on the plan's annual anniversary, without having to cancel your coverage.

If you have any friends or family members that need quality coverage, please give them my information, it would be greatly appreciated. We will find them the right plan just as we did for you.

Alright [Customer Name], you've been an absolute pleasure. Now do you have any questions before we disconnect?

Pinnacle Protect Plan 1 - 4

✖ *(DO NOT ASK IF THEY ARE STILL THERE)*
Alright [Customer Name], I have some excellent news for you. Based on the information you provided, I was able to locate a plan for you through the *Multiplan PHCS Network.* This plan offers fixed benefits for doctor visits, hospital care, and prescription savings. You have the flexibility to see any provider within the network, and there's no requirement for referrals to visit a specialist. Another key advantage is nationwide access—this coverage can be used anywhere the network is accepted. And most importantly, there is no deductible. Does everything sound clear so far?
▸ *(Wait for Answer)*

"Great. Based on everything we've reviewed, the monthly rate for this plan comes out to $___. There is a one-time standard group association fee of $___ to activate your membership within the plan. That brings the total for the first month to $___, and then moving forward, your monthly cost is simply $___ thereafter. Now, assuming this plan meets your medical needs, would the initial first-month amount of $___ be affordable for you today?"
▸ *(Wait for answer)*

Perfect. What I'll do next is walk you through the full benefits of the program. If everything looks good to you, we'll move forward with submitting the application to the insurance company. During the verification process, you'll receive an email that includes an outline of your coverage along with digital insurance cards. Your physical cards will then arrive by mail within approximately one to three weeks. Okay?
▸ *(Wait for answer)*

Perfect. Let's start by reviewing how your doctor visits work so you can see how the plan functions, and then—if everything looks good—we'll move forward with submitting the application. Sounds good?
▸ *(Wait for answer)*

You don't need referrals to see a specialist. When you visit a doctor, the bill is first reduced to the network's contracted rate, and then your doctor visit benefit is applied. So if a provider bills higher, the network adjusts it first, and your benefit helps cover the cost after that.
▸ *(Wait for Answer)*

People like this plan because it's simple. Unlike traditional plans with deductibles and coinsurance, this plan has no deductible and pays defined benefit amounts toward covered services—so you know what the plan contributes and can plan your expenses more easily.
✖ *(DO NOT WAIT - GO TO RX)*

RX:

You'll also receive access to a prescription discount program you can use at major pharmacies. Discounts vary, but many members find it helpful. The plan does not include benefits for mental health, substance abuse, or pregnancy-related care. You won't be needing coverage for those services, correct?"

✖ *(DO NOT WAIT GO RIGHT TO CLOSING STATEMENT)*

CLOSING STATEMENT

Your coverage is scheduled to start on _____, pending enrollment and verification. You can see in-network providers with no referral required, and the plan includes day-to-day benefits and fixed hospital benefits, all with no deductible. Before we proceed, can you confirm that everything we've reviewed about the plan and its limitations has been explained and understood?

▸ *(Wait for Answer)*

OK Perfect, what is a good email we can send all this over to?

Would you like your insurance cards issued with a middle initial, or just your first and last name?

What is the physical mailing address where we should send your hard-copy documents to?

Great. And just to confirm, is this phone number _____ the best number for the insurance company to reach you if they have any follow-up or verification questions?

Before we complete the enrollment, I do need to verify a few items on this recorded line. Can you please confirm that you are a United States citizen or legal resident, and that all health information you provided today is accurate and complete to the best of your knowledge? Lastly, for identity verification purposes, please confirm your Social Security number?

▸ *(Wait for Answer)*

For the initial payment, which card type would you prefer you put on file?

▸ *(Wait for Answer)*

Ok go ahead with the card number. *(OR)* I'm ready for the card number when you're ready.

✖ *(DO NOT SPEAK WHOEVER TALKS FIRST LOSES)*

Verification

This is the final step. I'm sending you a text now from a 848 number labeled 'ONE ENROLLMENT.' Please click the link once you receive it. Let me know when you see it.
▸ *(Wait for Answer)*

Great. Please open the link and, if possible, place your phone on speaker so I can walk you through the document. Your role here is simply to confirm that everything has been entered correctly. I'll have you verify the spelling of your first and last name, your home address, email address, and phone number, as well as confirm that your date of birth and gender are accurate. I'll also ask you to confirm the payment method on file and the billing address associated with the application. Once you've reviewed everything, let me know—does it all look correct?"
▸ *(Wait for Answer)*

As you scroll down, you'll see what's called a bill-by-benefit breakdown. It's just a transparent summary showing how the policy is set up and how the cost is allocated across the benefits. At the bottom, enter your first and last name—please capitalize both. Then sign electronically with your finger. You can leave the last checkbox unchecked unless you're applying for your child only. Click 'Accept' and tell me what you see.

(You've successfully signed your document)

Notes:

▸ *If needed: Don't forget to enroll customer GoodRX Account.*

▸ *You will need a verification code from the customer. Via TEXT.*

▸ *Remind customer to use GoodRX and not their insurance card at the pharmacy.*

Customer provides pharmacist of their GoodRX Account.

Post Close

Perfect—I've received your signature on my end. I'm going to go ahead and submit your application to the insurance carrier now.
✔ *(If it goes through)*

Congratulations [Customer Name], your application is complete. Do you have a pen and paper? Our customer service number is 855-736-1590, available Monday through Friday, 9:00 a.m. to 9:00 p.m. Eastern. I'll also provide you with my direct extension for future reference.

Your confirmation number is CHA561337—please keep that for your records. If anyone calls claiming to be from our agency and can't provide that number, they're not affiliated with us.

Now go ahead and write down MULTIPLAN PHCS NETWORK

The website you can visit to search providers is: providersearch.multiplan.com

With today's payment, your policy will become effective on _____. Your second payment will then be due 30 days from that effective date.
(If it's a postdate, make sure you state the dates correctly for the first billing date and the effective date)

You'll receive two ID cards by mail about 7 to 10 business days after your effective date. One is a discount card for prescriptions and other added benefits like dental and vision. The second card is your actual insurance ID card and will clearly show MULTIPLAN NETWORK Just for your records, I want to quickly recap the main details you'll see in your paperwork. Your plan uses the *Multiplan Network* for doctors and hospitals.

The insurance benefits are underwritten by Everest Reinsurance Company and offered through the (AWA) Americas Workers Association.

Your monthly billing is handled through Neo Health Solutions, which is the name you'll see on your statements. All of this will be clearly outlined in your policy documents.

I do want to clarify that this is a private, limited-benefit plan, not an ACA or major medical plan, and it does not provide coverage for maternity, substance abuse, or psychiatric services.

- I also want to explain the 12 and 12 pre-existing condition clause, which states anything diagnosed in the last 12 months would have a 12-month waiting period. There is a standard

30-day waiting period for any hospital,sickness and scheduled doctor visits.

If you have any friends or family members that need quality coverage, please give them my information, it would be greatly appreciated. We will find them the right plan just as we did for you.

Alright [Customer Name], you've been an absolute pleasure. Now do you have any questions before we disconnect?

NEO Smart Choice

✖ *(DO NOT ASK IF THEY ARE STILL THERE)*

Alright [Customer Name], I have some excellent news for you. Based on the information you provided, I was able to locate a plan for you through the *First Health EPO Network.* This plan offers fixed benefits for doctor visits, hospital care, and prescription savings. You have the flexibility to see any provider within the network, and there's no requirement for referrals to visit a specialist. Another key advantage is nationwide access—this coverage can be used anywhere the network is accepted. Coverage outside of the network is limited to emergency situations. Does everything sound clear so far?

▸ *(Wait for Answer)*

▸ *(Wait for answer)*

You don't need referrals to see a specialist. When you visit a doctor for preventative or wellness care such as an annual physical, routine screening, mammogram,

colonoscopy, or pap smear, the plan will cover these services 100% as long as you are in network. When you visit a primary physician you will have a $40.00 co-pay. When you visit a specialist you will have a $50.00 co-pay. When you visit an Urgent Care you will have a $60.00 co-pay. Your deductible will come into play in the event of hospitalization or surgery. For those services you have a $1,500/ $2,500/ $3,000 /$3,500 deductible, as well as a Maximum out of Pocket of $9,200.00. How is this sounding so far? This is nice for peace of mind in case something unexpected comes up. Sounds good?

✖ *(DO NOT WAIT - GO TO RX)*

RX:

For prescriptions, preferred generic medications have a $12 copay at participating retail pharmacies. For brand-name medications, you'll also receive a prescription savings card that can help reduce costs, depending on the medication.

✖ *(DO NOT WAIT GO RIGHT TO CLOSING STATEMENT)*

I do want to clarify that this is a private short term plan, not an ACA or major medical plan, and it does not provide coverage for maternity, substance abuse, or psychiatric services.

Questions & Complaints - Limited Med Doctor Visit

Rebuttals

This guide outlines the most common client questions specifically about doctor visits under Harmony Care, along with QA-safe, compliant rebuttals agents can use verbatim on live calls.

Client Question: So how much will the doctor visit cost me?
Compliant Response: Harmony Care pays doctor visits as a fixed cash benefit based on the plan's limits. The plan contributes a set amount toward the visit, and anything above that amount would be your responsibility. Providers charge differently, the benefit is meant to help offset the cost, not cover it in full.

Client Question: Is there a co-pay when I go to the doctor?
Compliant Response: There isn't a traditional copay. Instead of copays, the plan pays a defined cash benefit per visit, up to the plan's limits. This is one of the reasons the monthly cost stays lower.

Client Question: Will the doctor bill my insurance?
Compliant Response: The provider typically bills you directly, and the plan pays the benefit according to the policy terms. Harmony Care is a cash benefit plan and does not coordinate payment with providers like major medical insurance.

Client Question: Does this work for any doctor?
Compliant Response: You can see any doctor you choose within the network. The plan pays the same fixed benefit amount regardless of which provider you see and does not negotiate or reprice bills.

Client Question: How many times can I use it for doctor visits?
Compliant Response: Doctor visit benefits are limited to a set number of visits per year, as outlined in the policy. These limits will be clearly stated in the coverage documents.

Client Question: What if the visit is expensive?
Compliant Response: The plan still pays the same fixed benefit amount. Any charges above that benefit would be your responsibility. This is why the plan is considered financial assistance rather than full coverage.

Client Question: Can I use this for specialists?
Compliant Response: Yes. Doctor visit benefits apply to licensed physicians, including specialists. There are no referral requirements as long as they are in network.

Client Question: Does this cover follow-up visits?
Compliant Response: Benefits are paid per visit, up to the plan's annual visit limits. Each visit is treated separately.

Client Question: Why wouldn't I just pay cash for Doctor Visits? (Limited Med Plans)
Compliant Response: These plans provide pre-negotiated rates that are typically lower than cash pay prices.

Client Question: Can I receive this in email?
Compliant Response: Yes I am going to send you over the terms and conditions in the verification E SIgnature where you will have to accept prior to enrolling you into the plan.

Client Question: Is this a PPO or HMO Policy?
Compliant Response: These plans use a PPO NETWORK of doctors. You do not need a referral to see a specialist however you must be in network to receive benefits.

Client Question: What's an emergency situation?
Compliant Response: An emergency room visit.

Client Question: What's the difference between a Short Term (STM) plan and an ACA or major medical?
Compliant Response: A STM plan has waiting periods on pre-existing conditions, has limitations on coverage (Pregnancy, Substance or Alcohol Abuse Treatment, Mental Health services). STM plans can only be held for up to 2 years.

Client Question: What's the difference between the network and the underwriter?
Compliant Response: The Underwriter is who pays the claims and the network is the different doctors and facilities you can go to.

Client Question: What's a QLE?
Compliant Response: Loss of Major Medical Health Insurance within 60 days. This could mean an individual was fired from a job where they were provided insurance. Having a baby, moving to a different state, getting married, getting divorced, aging out of parents plans, losing medicaid, gaining US Citizenship.

Client Question: How do you get paid?
Compliant Response: I work for Central Health Advisors, an Insurance Agency and receive a weekly salary.
