Medical Bill Negotiation

Medical bills are often confusing and expensive, and billing services can be intimidating. With the Medical Bill Negotiation benefit, members have access to experienced Benefits Representatives to negotiate medical bills on their behalf and mediate between the member and their healthcare providers, often reducing medical bills by 40% with some savings as high as 70%.

An experienced Benefits Representative can work expertly on the member's behalf to help gain relief from an outstanding medical bill.

- Work to negotiate a lower patient responsibility on medical bills exceeding a \$1,000 out-of-pocket expense due to a single medical incident, such as hospitalization, medical emergency, surgery or medical testing
- Research available government or charity programs to assist with large medical bills.
- Work with the financial resources available to negotiate a settlement or set up a manageable payment plan
- Provide guidance on documentation associated with the case from start to finish; many cases are settled within 45 to 60 days after all necessary information is gathered

The Benefits Representative is available by phone, email or text to provide members updates or answer any questions related to the bill reduction case.

This benefit continues beyond a members' death for up to six months if survivors are required to resolve a qualifying unpaid medical bill the member leaves behind.

How it Works:

Members call **800-583-5557** to speak with a representative.

Medical Bill Mediation does not provide funds to pay for bills. This is a best-efforts service. Despite diligent efforts on behalf of members, some providers refuse to make accommodations to help resolve outstanding medical bills.

FREQUENTLY ASKED QUESTIONS

- **Is my policy ACA compliant?**

This coverage is not required to comply with certain federal market requirements, principally those contained in the Affordable Care Act (ACA). Review your Certificate carefully to be sure you are aware of and understand any exclusions and limitations regarding coverage of pre-existing conditions or health benefits (such as hospitalization, emergency services, maternity care, preventive care, prescription drugs, and mental health and substance use disorder services). Your coverage also has lifetime and/or annual limits on health benefits. If this coverage expires or you lose eligibility for this coverage, you might have to wait until an open enrollment period to get other health insurance coverage.

- **What are pre-existing conditions?**

A pre-existing condition is an illness, injury or condition for which medical advice, diagnosis, care or treatment was recommended or received, or that had manifested itself in such a manner that would have caused an ordinarily prudent person to seek medical advice, diagnosis, care or treatment within the 12 months immediately preceding the Covered Person's Coverage Effective Date. State rules may vary.

- **How does a Fixed Indemnity product work?**

A Fixed Indemnity product like Pinnacle works differently than other plans you may have had in the past. Fixed indemnity health insurance is a type of medical insurance that pays a pre-determined amount on a per-period or per-incident basis, regardless of the total charges incurred.

- **What are my payouts with my Pinnacle product?**

Your payouts are the same no matter what the cost of care actually is. Fixed Indemnity products are paid regardless of any other coverage you may currently have.

- **Are deductibles, coinsurance, or copayments applicable with my Pinnacle product?**

There is no deductible, coinsurance, or copayment applicable to benefits the fixed indemnity plan covers. The reimbursement rate is fixed and typically sent to the insured and not to the provider of service. Because the indemnity plan benefit is paid directly to you, you have the flexibility to decide how you pay those out-of-pocket medical expenses.
